

WANTED

YOUNG ADULTS WHO WANT TO HAVE FUN AND MAKE FRIENDS

LOOKING FOR INDEPENDENT YOUNG ADULTS BETWEEN THE AGES OF 18-25'ish.

We are two young adults in the Scarborough area who are hoping to start a 'Young Adult Group'. We both are college students who want to start a group to get to know other like-minded ASD young adults, to make friends and do to fun and interesting activities together. What activities are done will be determined by the participants as a group. It could be fun activities such as bowling, movies, archery, go karting etc., or it could be volunteer activities or it could be learning new skills.

Our hope is that the group would be consisted of young adults who are independent and who can travel around Toronto independently. We are hoping to get together twice a month to go out in the community to do activities or simply hanging out at someone's house. The goal is to make lifelong friends and do fun activities together.

The group's home base would be in the Scarborough area but they would likely be attending events and activities around Toronto (with limited monitoring – some parental support is likely appropriate).

If you are interested or have a young adult who is interested send an email to orlymylight@gmail.com or pearce.ginny@hotmail.com. PLEASE give some details about yourself such as AGE, ADDRESS and INTERESTS.

We look forward to meeting you all, **AKIRA and STEPHEN**
